

ECON 3M03: Introduction to Game Theory

Fall 2018

Instructor: Maxim Ivanov

Office: 408 KTH

Lecture: Monday 7:00–10:00PM in KTH 109

Email: mivanov@mcmaster.ca

Office Hours: Wednesday, 3:00 – 4:00PM

TA: TBA

Office: TBA

Email: TBA

Office Hours: TBA

COURSE DESCRIPTION

This course introduces the basic concepts of game theory. The emphasis is on the unifying perspective that game theory offers to questions in economics, other disciplines, and everyday life.

PREREQUISITES

ECON 1B03 (or ARTSSCI 2E03); and MATH 1K03 (or equivalent). Not open to students with credit in ECON 3Y03 if the topic was Introduction to Game Theory.

COURSE OBJECTIVES

The purpose of the course is to make students comfortable with the basics of the game theory and its applications to different areas in economics, political science, biology, sociology, and other disciplines. It will enable students to consider numerous social interactions as strategic games and to use game-theoretic concepts to predict outcomes of these interactions.

CLASS FORMAT

In Person, Lecture, Course section offered in the evening

COURSE MATERIALS AND TEXTS

- Textbook (mandatory): Martin J. Osborne, An Introduction to Game Theory, 2003, Oxford University Press.

AVENUE TO LEARN

Students should be aware that, when they access the electronic components of this course, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in this course will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure, please discuss this with the course instructor.

COURSE EVALUATION – OVERVIEW

1. Mid-term Exam 1 – 30%
2. Mid-term Exam 2 – 30%
3. Final Exam – 40%

COURSE EVALUATION – DETAILS

Mid-term Exams

There will be two mid-term in-class exams. Each mid-term exam is worth 30% of your final grade. The dates of the mid-term exams are:

October 15 and November 5.

Final Exam

The final exam is administered during the final exam week and is comprehensive. The final exam is scheduled by the Registrar and missed final exams will be dealt with under the Registrar's rules.

TUTORIALS

There will be two in-class problem-solving sessions to help you better prepare for the mid-term exams. The dates of the sessions are:

October 1 and October 29.

COURSE POLICIES

Grades

The grades are based on the **cumulative distribution of scores** at the end of the semester with the following percentiles: **A – 20-25%, B – 25-30%, C – 25-30%, D – 10-15%, F – 10-15%.** **NOTE:** The grading scheme is fixed. All requests about changing it, for example, using the standard grading system, reallocating the weights of exams, dropping the lowest score, providing extra work, etc. will be **DISREGARDED**.

Grade Adjustment Techniques

The above grade percentiles are **approximate**. “+”s, “-”s, and minor adjustments (for example, because some students drop the class before the end of the semester, many students receive similar scores, etc.), if needed, will be taken into account at the end of the semester.

Absences, Missed Work, Illness (MSAF)

If you have a valid and verified reason not to take the midterm exam, you must notify the instructor within the time frame specified by the university policies. In this case, you will have to take the **make-up midterm exam** (usually within 7 days since the date of the missed exam). The format of the make-up exam is identical to the format of the missed exam. Because the weight of each mid-term exam is 30%, in the case of missing the mid-term exam you must come the Faculty Office and submit supporting documentation. **Filling up the MSAF form only is NOT sufficient for missing mid-term exams.**

Where to Get Help

The instructor's office hours are on Wednesday at 3:00–4:00PM or by appointment in 408 KTH. The TA's office hours and location TBA.

UNIVERSITY POLICIES

Academic Integrity Statement

You are expected to exhibit honesty and use ethical behavior in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behavior can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university.

It is your responsibility to understand what constitutes academic dishonesty. For information on the various types of academic dishonesty please refer to the [Academic Integrity Policy](#).

The following illustrates only three forms of academic dishonesty:

1. Plagiarism, e.g. the submission of work that is not one's own or for which credit has been obtained.
2. Improper collaboration in group work.
3. Copying or using unauthorized aids in tests and examinations.

Academic Accommodation of Students with Disabilities

Students who require academic accommodation must contact Student Accessibility Services (SAS) to make arrangements. Academic accommodations must be arranged before classes or academic work begins, and for each term of study. Student Accessibility Services can be contacted by phone 905-525-9140 ext. 28652 or e-mail sas@mcmaster.ca. For further information, consult McMaster University's Policy for [Academic Accommodation of Students with Disabilities](#).

Academic Accommodation for Religious, Indigenous and Spiritual Observances

Students who require academic accommodation due to an Observance must submit a RISO form to their Faculty office, electronically or in person, normally within ten working days from the beginning of each term in which they are anticipating a need for Accommodation. For further information, consult McMaster University's [Policy on Academic Accommodation for Religious, Indigenous and Spiritual Observances](#).

Faculty of Social Sciences E-mail Communication Policy

Effective September 1, 2010, it is the policy of the Faculty of Social Sciences that all e-mail communication sent from students to instructors (including TAs), and from students to staff, must originate from the student's own McMaster University e-mail account. This policy protects confidentiality and confirms the identity of the student. It is the student's responsibility to ensure that communication is sent to the university from a McMaster account. If an instructor becomes aware that a communication has come from an alternate address, the instructor may not reply at his or her discretion.

Course Modification

The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check his/her McMaster email and course websites weekly during the term and to note any changes.

WEEKLY COURSE SCHEDULE (TENTATIVE) AND/OR IMPORTANT DATES

Week 1: September 4 – 7

Topic: Introduction

Readings: Chapter 1

Week 2: September 10 – 14

Topic: Nash Equilibrium: Theory

Readings: Chapter 2

Week 3: September 17 – 21

Topic: Nash Equilibrium: Theory

Readings: Chapter 2

Week 4: September 24 – 28

Topic: Nash Equilibrium: Illustrations

Readings: Chapter 3

Week 5: October 1 – 5

Topic: Nash Equilibrium: Illustrations

Readings: Chapter 3

Week 6: October 8 – 12

Mid-term Recess

Week 7: October 15 – 19

Topic: Mid-term Exam 1

Readings: Chapters 1–3

Week 8: October 22 – 26

Topic: Mixed Strategy Equilibrium

Readings: Chapter 4

Week 9: October 29 – November 2

Topic: Mixed Strategy Equilibrium

Readings: Chapter 4

Week 10: November 5 – 9

Topic: Mid-term Exam 2

Readings: Chapter 4

Week 11: November 12 – 16

Topic: Extensive Games with Perfect Information: Theory

Readings: Chapter 5

Week 12: November 19 – 23

Topic: Extensive Games with Perfect Information: Illustrations

Readings: Chapter 6

Week 13: November 26 – 30

Topic: Bayesian Games

Readings: Chapter 9

Week 14: December 3 – 5

Topic: Bayesian Games

Readings: Chapter 9
