ECON 1BB3: INTRODUCTORY MACROECONOMICS
Sections C01, C02
McMaster University
Fall, 2017

Instructor: Bridget O’Shaughnessy
KTH 403
905-525-9140 x23808
oshbaughnessy@mcmaster.ca

Instructional Assistant: Aleksandra Gajic
KTH 707
905-525-9140 x23800
econia@mcmaster.ca

Lectures:
C01: We 2:30 – 3:20, JHE 376
C02: We 11:30 – 12:20, TSH 120

Office hours:
We 10:00 – 11:00
Th 9:00 – 10:00
Or by appointment.

Course Materials:
ECON Macro, 1st Canadian Ed. – McEachern, Altman, Ibn-Boamah, Moir, O’Shaughnessy – required.
Aplia – Online homework website – required.
Iclicker – personal response unit – recommended.

Course Website: A2L, or “Avenue” (terms will be used interchangeably)
http://avenue.mcmaster.ca/

Course Objectives:
- Learn about the use of assumptions and models in economics.
- Be able to use specific models (PPF, supply and demand, AD-AS) to analyze economic problems.
- Understand the computation of macroeconomic variables such as the inflation rate, unemployment rate, and GDP.
- Understand the use of monetary and fiscal policy in Canada, a small open economy.
- Develop analytical and problem solving skills.

Evaluation:
Term tests (Saturdays - Sept. 30, Nov. 4; 9:00am) 45%
Final exam 40%*
Aplia math review test 3%
Aplia online homework 12%

*You must pass the final exam to pass the course.

Course Structure:
This course is offered in a “blended” format, meaning that we will meet face-to-face as a class for only one 50 minute session per week (every Wednesday). The remainder of the course content will be delivered online. Each week you will use a “weekly schedule” to keep you on task as you read the text.
book, watch instructor videos, attend the weekly face-to-face session, and complete online homework. Please be aware that you are responsible for the content in the book, content delivered via online video, and content delivered in the face-to-face class. There may be some topics that are only covered using *one* of these formats.

**Course Content:**
The course is broken into four broad content modules:
Module 1 – Microeconomic Topics – 3 weeks
Module 2 – Fundamentals of Macroeconomics – 4 weeks
Module 3 – Fiscal and Monetary Policy – 3 weeks
Module 4 – International Economics – 1 week

**Tutorials:**
There are six tutorials, beginning the week of Sept. 18. Each student has registered into a particular tutorial section. Tutorials meet during the following weeks:

<table>
<thead>
<tr>
<th>Dates</th>
<th>Tutorial Number</th>
<th>Tutorial Topic</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sept. 18-22</td>
<td>TTL #1</td>
<td>Intro to Econ 1BB3</td>

</tr>
<tr>
<td>Nov. 27 - Dec. 1</td>
<td>TTL #6</td>
<td>Final Exam Practice Questions</td>
</tr>
</tbody>
</table>

**Tests:**
There are two mandatory term tests, written in person. The term test with the higher score is worth 24% and the test with the lower score is worth 21%. The tests will consist of 40 multiple choice questions. The only calculator allowed during tests is the Casio FX-991, which can be purchased at the Campus Store. Tests will be conducted on Saturday, September 30 and Saturday, November 4 from 9:00 to 10:15 am. You will be assigned a test room location during the week prior to the actual test dates, based on your student number. An alternate date is provided for students who obtain consent by submitting the official request form ten days prior to the test (see “Important dates” on page 6). First consideration will be given to students with a verified reason for requesting the early write (such as religious observation, employment, or participation on a university team). If you do have a verifiable reason for requesting to write early, please include contact information for someone who can verify your reason (e.g. an employer, religious leader, or coach). Notification of writing the tests early will be posted on Avenue. Due to room size limitations, it may not be possible to grant consent in all cases. If you are not approved to write early, you may not write on the alternate date: Your test will not be graded. The alternate dates for the Saturday tests are the previous Thursday evenings from 7:00 to 8:15 pm. If you have a legitimate reason and documentation indicating that you cannot write the test on either the alternate Thursday evening date OR the Saturday test, then the weight of the test will be transferred to your final exam (if you have a course conflict with the scheduled early write, submit a printout of your timetable).

If you miss a term test you will receive a grade of zero unless you follow McMaster guidelines for “Requests for Relief for Missed Academic Term Work” in the Undergraduate Calendar. You may use the
online reporting tool, MSAF, for ONE absence due to medical/personal reasons, as long as the absence is three days or less, and for work worth less than 25% of your final grade. In terms of this course, you may use the MSAF form if you miss a term test, but only for one absence. If you miss both tests you need to see your Faculty office. The MSAF “Self Report” and “Missed Work” forms are available in the Student Centre in Mosaic. Upon submitting the MSAF form, you will be instructed to email your professor – please do not email us, as we have too many such emails to respond to individually. Check Avenue for information about how to tell whether or not we successfully received your MSAF notification (we will let you know via the “Assessment”>“Grades” tab in Avenue).

In the case of a missed test, the final exam will be re-weighted. Missing an early write test does not entitle you to write the test on the Saturday morning – if you signed up for the early write and you are ill, you should complete the online MSAF form (or see your Faculty office) and the weight will be transferred to your final exam. Make-up tests will not be given under any circumstances.

**Aplia math review test and online homework:**

- Since doing well in economics requires some competence in mathematics, your first assignment is an online math review test at the Aplia website. You must take the test on or before Friday, Sept. 22 at 11:59pm.
- If you miss the math review test, you may submit an MSAF and then email me (within one week) to schedule a new due date. The weight of a missed math review test will *not* be transferred to the final exam.
- There are 16 graded homework assignments, each associated with a chapter in the textbook. Assignments are due on Monday nights at 11:59pm. *Make sure that your computer and your Aplia account have the correct time zone (Eastern Standard Time) so that the due dates show up as 11:59pm.* You may have more than one assignment due in a given week, so be sure to stay on top of the deadlines.
- Homework assignments are graded using a system called “Grade It Now” – you find out immediately if your answer is correct or incorrect, you have up to three chances to answer a similar question, but your grade is the *average* of all three attempts.
- You have four “free passes” for missed homework assignments. You may use your free passes if you are ill, forget a due date, or have computer problems. You do not need a doctor’s note or need to contact anyone to use a free pass. Since there are a total of 16 assignments, this means that I will grade only your top 12 assignments (each assignment is worth 1% of your final grade). Given the large number of free passes for homework, **MSAF forms will not be accepted for the Aplia homework.** Please note that a free pass may *not* be used if you miss the math review test – for a missed math review test, see the second bullet point above.
- A “practice” problem set about using Aplia is available (with a due date of Sept. 11 – but this assignment is not graded, so please take a look at it even if you miss the due date). I strongly recommend that you try this problem set as it explains how the “Grade it Now” assignments work.
- Instructions on how to access Aplia will be provided on Avenue and during the first face-to-face class on Sept. 6.
**Academic Integrity:**
You are responsible for complying with the University’s policy regarding academic integrity. The policy is available at [http://www.mcmaster.ca/policy/Students-AcademicStudies/AcademicIntegrity.pdf](http://www.mcmaster.ca/policy/Students-AcademicStudies/AcademicIntegrity.pdf) and covers a wide variety of topics including cheating on tests and plagiarism. You are expected to complete the online homework, math review test, and in-person tests/exams independently.

**iclicker:**
We will be using the iclicker this year during the face-to-face sessions. These personal response units are recommended but not required and will not be used for grades. Each week we will work on several multiple choice questions to review what you learned while watching the online content videos.

**Code of conduct:**
Face-to-face sessions of this class are being held in very large rooms with hundreds of students. Please be courteous to each other and to the instructor. Turn off your cell phones before class starts. Please do not listen to music, play games, check email or social media, text message, or hold loud conversations that may be disruptive to the rest of the class. Laptop computers should be used only for taking notes during class. Using your laptop for other purposes is extremely distracting to students sitting behind you. If you arrive late, please use the doors at the back of the classroom (if available). If you arrive early or on time, please sit near the front of the room to allow students who are late to slip into class quietly. We are only meeting face-to-face once per week, so let’s make the most of this time together as a class.

**Students who require academic accommodations:**
If you are entitled to academic accommodations, you need to meet with an SAS (Student Accessibilities Services) program coordinator and have your letter of accommodation signed by me as early in the term as possible. I only sign letters in my office, not in the lecture hall before or after class. **Failure to meet with me in person may result in your accommodation request not being granted.** If you are writing your tests with SAS, book at least two weeks in advance. If possible, book both term tests at the beginning of the semester. I only allow SAS tests to be written at the same time as the rest of the class (either Thursday or Saturday). If you are writing your test with SAS on Thursday, do *not* submit an early write request form.

**Where to get help:**
To get help with the course material, you have three options:

- The instructor – Bridget O’Shaughnessy – I have office hours in my office (KTH 403) on Wednesdays from 10:00 to 11:00, on Thursdays from 9:00 to 10:00, or by appointment.
- The Instructional Assistant – Aleksandra Gajic – will hold office hours at KTH 707 Monday, Tuesday, Wednesday, and Thursday from 12:00 to 2:00pm.
- If you are having trouble with technical or administrative matters relating to Aplia, please email nelson.brain@nelson.com.
- If you need help with other administrative matters relating to the course, please contact the Instructional Assistant at econia@mcmaster.ca. We will reply to all emails within two business days of receipt. We will not respond to emails for which the answer is available in this course outline or on A2L (eg. “Where is your office and what are your office hours?”)
- Please check the “Announcements” section of Avenue regularly. Since this is a blended course, you are expected to check the course website *daily*.
Faculty of social sciences e-mail communication policy:
Effective September 1, 2010, it is the policy of the Faculty of Social Sciences that all e-mail communication sent from students to instructors (including TAs), and from students to staff, must originate from the student’s own McMaster University e-mail account. This policy protects confidentiality and confirms the identity of the student. It is the student’s responsibility to ensure that communication is sent to the university from a McMaster account. If an instructor becomes aware that a communication has come from an alternate address, the instructor may not reply at his or her discretion.

**Important dates:**

- **Wednesday, Sept. 13** - Last day for registration and adding or dropping courses
- **Wednesday, Sept. 20** - Request for test #1 early write due on A2L by 11:59 pm
- **Friday, Sept. 22** - Math test due on Aplia, 11:59pm
  - Notification regarding writing test #1 early will be posted on Avenue;
  - Room assignments for test #1 (Saturday) posted on Avenue
- **Thursday, Sept. 28** - Test #1 (Ch. 1-5), early write, 7:00pm to 8:15pm
- **Saturday, Sept. 30** - Test #1 (Ch. 1-5), 9:00am to 10:15am
- **Oct. 9-15** - Reading Week
- **Wednesday, Oct. 25** - Request for test #2 early write due on A2L by 11:59 pm
- **Friday, Oct. 27** - Notification regarding writing test #2 early will be posted on Avenue;
  - Room assignments for test #2 (Saturday) posted on Avenue
- **Thursday, Nov. 2** - Test #2 (Ch. 6-10), early write, 7:00pm to 8:15pm
- **Saturday, Nov. 4** - Test #2, (Ch. 6-10), 9:00am to 10:15am
- **Friday, Nov. 10** - Last day for cancelling courses without failure by default
- **December 8-21** - Final Exam Period – exact exam date announced October (Chapters 5 – 16)

---

The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check his/her McMaster email and course websites weekly during the term and to note any changes.
