ECON 1BB3: INTRODUCTORY MACROECONOMICS

Sections C01, C02, C03
McMaster University
Winter, 2019

Instructor: Bridget O’Shaughnessy    Instructional Assistant: Aleksandra Gajic
KTH 403                              KTH 707
905-525-9140 x23808                  905-525-9140 x23800
oshbaughnessy@mcmaster.ca    econia@mcmaster.ca

Lectures:    C02:  We 9:30 – 10:20, MDCL 1305
             C01:  We 2:30 – 3:20, MDCL 1305
             C03:  We 6:00 – 6:50, LRW B1007

Office hours: We 11:00 – 12:00
             Th 10:00 – 11:00
             Or by appointment.

Course Materials: ECON Macro, 1st Canadian Ed. – McEachern, Altman, Ibn-Boamah,
                  Moir, O’Shaughnessy – required.
                  Aplia – Online homework website – required.
                  Iclicker – personal response unit – recommended.

Course Website: A2L, or “Avenue” (terms will be used interchangeably)
http://avenue.mcmaster.ca/

Course Objectives:
• Learn about the use of assumptions and models in economics.
• Be able to use specific models (PPF, supply and demand, AD-AS) to analyze economic
  problems.
• Understand the computation of macroeconomic variables such as the inflation rate,
  unemployment rate, and GDP.
• Understand the use of monetary and fiscal policy in Canada, a small open economy.
• Develop analytical and problem solving skills.

Evaluation: Term tests 45%
             Term Test 1 (Ch. 1-5) – Saturday, Feb. 2
             Term Test 2 (Ch. 6-10) – Saturday, Mar. 9
             Final exam* 40%
             Aplia math review test 3%
             Aplia online homework 12%

*You must pass the final exam to pass the course.
Course Structure:
This course is offered in a “blended” format, meaning that we will meet face-to-face as a class for only one 50 minute session per week (every Wednesday). The remainder of the course content will be delivered online. Each week you will use a “weekly schedule” to keep you on task as you read the text book, watch instructor videos, attend the weekly face-to-face session, and complete online homework. Please be aware that you are responsible for the content in the book, content delivered via online video, and content delivered in the face-to-face class. There may be some topics that are only covered using *one* of these formats.

Course Content:
The course is broken into four broad content modules:
Module 1 – Microeconomic Topics – 3 weeks
Module 2 – Fundamentals of Macroeconomics – 4 weeks
Module 3 – Fiscal and Monetary Policy – 3 weeks
Module 4 – International Economics – 1 week

Tutorials:
There are six tutorials, beginning the week of Sept. 17. Each student has registered into a particular tutorial section. Tutorials meet during the following weeks:

<table>

</tbody>
</table>

Tests:
There are two mandatory term tests, written in person. The term test with the higher score is worth 24% and the test with the lower score is worth 21%. The tests will consist of 40 multiple choice questions. The only calculator allowed during tests is the McMaster Standard Calculator (the Casio FX-991 MS or Casio FX-991 MS Plus), which can be purchased at the Campus Store. Tests will be conducted on Saturday, February 3 and Saturday, March 10 from 9:00 to 10:15 am. You will be assigned a test room location during the week prior to the actual test dates, based on your student number. An alternate date is provided for students who obtain consent by submitting the official request form ten days prior to the test (see “Important dates” on page 6). You may access the early write request by completing a quiz in Avenue. The quiz function is being used because it provides us with the administrative data needed; the quiz will *not* be graded. *Do not* submit the early write request unless you want to write the test early. First consideration will be given to students with a verified reason for requesting the early write (such as religious observation, employment, or participation on a university team). If you do have a verifiable reason for requesting to write early, please include contact information for
someone who can verify your reason (e.g. an employer, religious leader, or coach). Notification of writing the tests early will be posted on Avenue. Due to room size limitations, it may not be possible to grant consent in all cases. If you are not approved to write early, you may not write on the alternate date: Your test will not be graded. The alternate dates for the Saturday tests are the previous Thursday evenings from 7:00 to 8:15pm. If you have a legitimate reason and documentation indicating that you cannot write the test on either the alternate Thursday evening date OR the Saturday test, then the weight of the test will be transferred to your final exam (if you have a course conflict with the scheduled early write, submit a printout of your timetable).

If you miss a term test you will receive a grade of zero unless you follow McMaster guidelines for “Requests for Relief for Missed Academic Term Work” in the Undergraduate Calendar. You may use the online reporting tool, MSAF, for ONE absence due to medical/personal reasons, as long as the absence is three days or less, and for work worth less than 25% of your final grade. In terms of this course, you may use the MSAF form if you miss a term test, but only for one absence. If you miss both tests you need to see your Faculty office. The MSAF “Self Report” and “Missed Work” forms are available in the Student Centre in Mosaic. Upon submitting the MSAF form, you will be instructed to email your professor – please do not email us, as we have too many such emails to respond to individually. If you missed the test and submitted an MSAF online form, you will see “100/40” for your test score. This lets you know that we DID receive the MSAF notification and that we will be transferring the weight of this test to your final exam. If you see “0/40” or “-/40”, then we do not have a record of an MSAF being submitted and you should contact econia@mcmaster.ca.

In the case of a missed test, the final exam will be re-weighted. Missing an early write test does not entitle you to write the test on the Saturday morning – if you signed up for the early write and you are ill, you should complete the online MSAF form (or see your Faculty office) and the weight will be transferred to your final exam. Make-up tests will not be given under any circumstances.

**Aplia math review test and online homework:**

- Since doing well in economics requires some competence in mathematics, one of your first assignments is an online math review test at the Aplia website. You must take the test on or before Friday, Jan. 25 at 11:59pm.
- If you miss the math review test, you may submit an MSAF and then email me (within one week) to schedule a new due date. The weight of a missed math review test will *not* be transferred to the final exam.
- There are 16 graded homework assignments, each associated with a chapter in the textbook. Assignments are due on Monday nights at 11:59pm. **Make sure that your computer and your Aplia account have the correct time zone (Eastern Standard Time) so that the due dates show up as 11:59pm.** You may have more than one assignment due in a given week, so be sure to stay on top of the deadlines.
- Homework assignments are graded using a system called “Grade It Now” – you find out immediately if your answer is correct or incorrect, you have up to three chances to answer a similar question, but your grade is the *average* of all three attempts.
• You have four “free passes” for missed homework assignments. You may use your free
passes if you are ill, forget a due date, or have computer problems. You do not need a
doctor’s note or need to contact anyone to use a free pass. Since there are a total of 16
assignments, this means that I will grade only your top 12 assignments (each
assignment is worth 1% of your final grade). Given the large number of free passes for
homework, **MSAF forms will not be accepted for the Aplia homework.** Please note
that a free pass may *not* be used if you miss the math review test – for a missed math
review test, see the second bullet point above.

• A “practice” problem set about using Aplia is available (with a due date of Jan. 25 – but
this assignment is not graded, so please take a look at it even if you miss the due date).
I strongly recommend that you try this problem set as it explains how the “Grade it Now”
assignments work.

• Instructions on how to access Aplia will be provided on Avenue and during the first face-
to-face class on Jan. 9.

• You have free-trial access to Aplia until January 23 at 11:59pm.

• A representative from the textbook publishing company will hold office hours in KTH
306/A on the following dates/times to help with any registration issues you may
experience:
  ▪ Thursday, January 10th (10 – 11am)
  ▪ Friday, January 11th (1 – 2pm)
  ▪ Thursday, January 17th (12 – 1pm)
  ▪ Friday, January 18th (3 – 4pm)

**Academic Integrity:**
You are responsible for complying with the University’s policy regarding academic integrity. The
policy is available at
[http://www.mcmaster.ca/policy/StudentsAcademicStudies/AcademicIntegrity.pdf](http://www.mcmaster.ca/policy/StudentsAcademicStudies/AcademicIntegrity.pdf)
and covers a
wide variety of topics including cheating on tests and plagiarism. You are expected to complete
the online homework, math review test, and in-person tests/exams independently.

**iclicker:**
We will be using the iclicker this year during the face-to-face sessions. These personal
response units are recommended but not required and will not be used for grades. Each week
we will work on several multiple choice questions to review what you learned while watching the
online content videos.

**Code of conduct:**
Face-to-face sessions of this class are being held in very large rooms with hundreds of
students. Please be courteous to each other and to the instructor. Turn off your cell phones
before class starts. Please do not listen to music, play games, check email or social media, text
message, or hold loud conversations that may be disruptive to the rest of the class. Laptop
computers should be used only for taking notes during class. Using your laptop for other
purposes is extremely distracting to students sitting behind you. If you arrive late, please use
the doors at the back of the classroom (if available). If you arrive early or on time, please sit near the front of the room to allow students who are late to slip into class quietly. We are only meeting face-to-face once per week, so let's make the most of this time together as a class.

**Students who require academic accommodations:**
If you are entitled to academic accommodations, you need to meet with an SAS (Student Accessibilities Services) program coordinator and activate your academic accommodations online. If you are writing your tests with SAS, book at least two weeks in advance. If possible, book both term tests at the beginning of the semester. I only allow SAS tests to be written at the same time as the rest of the class (either Thursday or Saturday). If you are writing your test with SAS on Thursday, do *not* submit an early write request form. For accommodations that are not related to tests or exams, you must communicate with me directly (in person, or by email) in order for your accommodations to be met.

**Where to get help:**
To get help with the course material, you have three options:

- The instructor – Bridget O’Shaughnessy – I will have office hours in LRW 3043/A on Wednesdays from 11:00 to 12:00 and in my office (KTH 403) on Thursdays from 10:00 to 11:00 or by appointment.
- The Instructional Assistant – Aleksandra Gajic – will hold office hours at KTH 707 Monday, Tuesday, Wednesday, and Thursday from 12:00 to 2:00pm.
- If you are having trouble with technical or administrative matters relating to Aplia, please email nelson.brain@nelson.com.
- If you need help with other administrative matters relating to the course, please contact the Instructional Assistant at econia@mcmaster.ca. We will reply to all emails within two business days of receipt. We will not respond to emails for which the answer is available in this course outline or on A2L (eg. “Where is your office and what are your office hours?”)
- Please check the “Announcements” section of Avenue regularly. Since this is a blended course, you are expected to check the course website *daily*.

**Faculty of social sciences e-mail communication policy:**
Effective September 1, 2010, it is the policy of the Faculty of Social Sciences that all e-mail communication sent from students to instructors (including TAs), and from students to staff, must originate from the student’s own McMaster University e-mail account. This policy protects confidentiality and confirms the identity of the student. It is the student’s responsibility to ensure that communication is sent to the university from a McMaster account. If an instructor becomes aware that a communication has come from an alternate address, the instructor may not reply at his or her discretion.

**Important dates:**

- **Wednesday, Jan. 15:** Last day for registration and adding or dropping courses
- **Wednesday, Jan. 23:** Request for test #1 early write due on A2L by 11:59 pm
- **Friday, Jan. 25:** Notification regarding writing test #1 early will be posted on Avenue; Room assignments for test #1 (Saturday) posted on Avenue
- **Friday, Jan. 25:** Math test due on Aplia, 11:59pm
- **Thursday, Jan. 31:** Test #1 (Ch. 1-5), early write, 7:00pm to 8:15pm
- **Saturday, Feb. 2:** Test #1 (Ch. 1-5), 9:00am to 10:15am
- **Feb. 18-22:** Reading Week
- **Wednesday, Feb. 27:** Request for test #2 early write due on A2L by 11:59 pm
- **Friday, Mar. 1:** Notification regarding writing test #2 early will be posted on Avenue; Room assignments for test #2 (Saturday) posted on Avenue
- **Thursday, Mar. 7:** Test #2 (Ch. 6-10), early write, 7:00pm to 8:15pm
- **Saturday, Mar. 9:** Test #2, (Ch. 6-10), 9:00am to 10:15am
- **Friday, Mar. 15:** Last day for cancelling courses without failure by default
- **Apr. 11-29:** Final Exam Period – exact exam date announced in November (Chapters 5 – 16)

The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check his/her McMaster email and course websites weekly during the term and to note any changes.
